

Web Development

Task 1 - Planning Document

Maxwell Zammit Plum

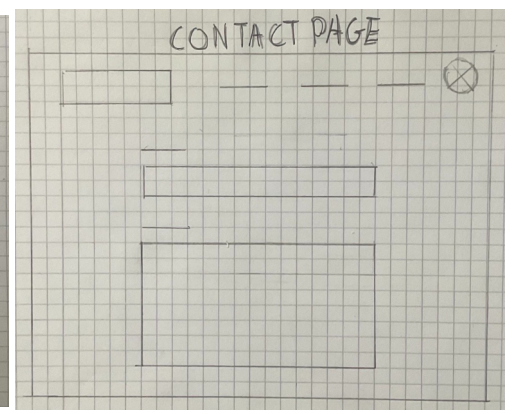

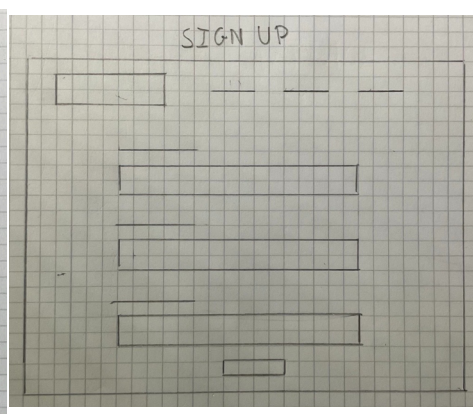

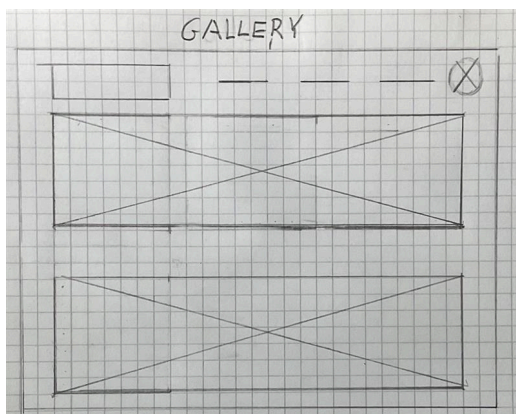

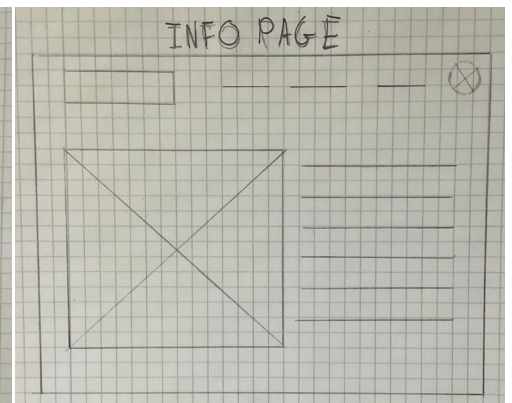

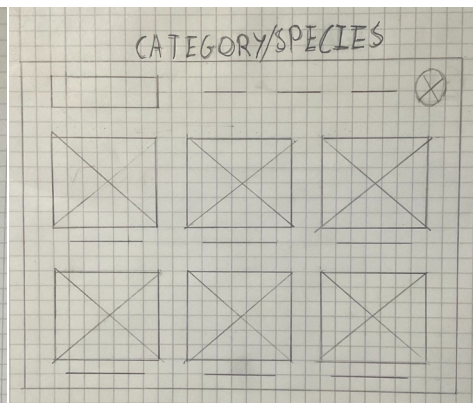

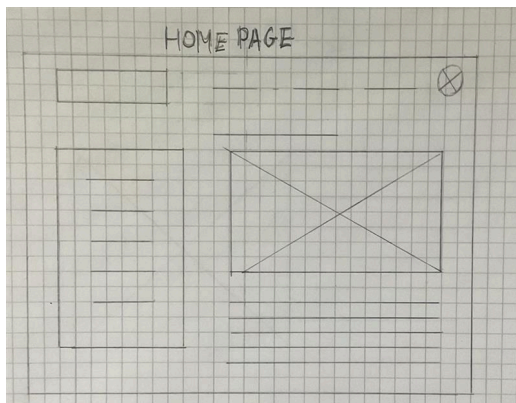

Part 1 - Project Idea

1. Explain what the website is about and what its purpose is

1. A bird information - NatureNest is going to be offering free Educational content (Content website) about birds from all around Malta (Local) such as information on their habitats, history, appearances and much more. The purpose for NatureNest is for those people who would love to gain knowledge and learn about birds. It will all be free to read and explore, not like other websites.

1. List all the different pages that you intend to have as part of your website, including all the functionality that will be built into these pages

- Home Page
- Category/Species Page
- Information Page
- Gallery Page
- Contact Page
- Interactive Map (Malta) Page
- Search Bar Function
- Change to Dark Theme Function
- Favorites / Save Feature Function
- Sign In / Sign Up Function
- Clicking buttons Function
- Back to top button appears Function

Part 2 - Target Audience

1. Develop 3 User Personas that represent the target audience of your website.
Make sure to include all the relevant information.

About me

I'm a students currently studying at St. Edmund's College, even though I love the way birds look and act, Im not that knowanglable on birds but I have to explore and learn a bit for one of my units

Goals/Reasons

My specific goal/reason for using this website NatureNest is for my unit called nature discovery, where I got to find information on three different species of birds and study their appearance such as fether colors and where their originally came from, while I automatically learn and gain information for my own benefits.

Name: Alex Zara

Age: 18 years old

Work: Student

Nationality: Maltese

Needs

- Clear explanations
- Simple navigation
- Quick search tools
- More use of visuals

Difficulties/Challenges

Dificulties I have faced with other existing similar websites, was the use of complex scientific terms or long paragraphs with very to few visuals to look at, since im a more of a visual learner and I have dyslexia.

Part 2 - Target Audience

1. Develop 3 User Personas that represent the target audience of your website.
Make sure to include all the relevant information.

About me

I'm currently working as an accountant, and recently started birdwatching as a hobby. I like visiting parks and taking photos of birds I see. I'm still new to birdwatching and sometimes struggle to identify the species.

Goals/Reasons

My specific goal/reason for using NatureNest is to identify birds and learn interesting facts about them so I can continue enjoying my hobby birdwatching when I'm free from work on the weekends.

Needs

- Clear pictures
- Identification tools
- Simple descriptions
- Mobile - friendly

Difficulties/Challenges

Difficulties and challenges that I find while searching for similar websites is that a lot of sites are cluttered with ads and that some are hard to navigate through.
